and Emergency Services**

**Fire Prevention
and Control**

A photograph of firefighters at an emergency scene. In the foreground, a firefighter in full brown turnout gear and a helmet with a yellow stripe is pushing a red rolling toolbox. The toolbox has "Propane Specialist Response Kit" printed on it. In the background, two other firefighters are visible near a white tanker truck. The scene is outdoors on a paved area with some debris.

2022 LEGISLATIVE REPORT

Jackie Bray
Commissioner

Kathy Hochul
Governor

James B. Cable
State Fire Administrator

COUNTY-BY-COUNTY

Section 156 of NYS Executive Law requires a yearly firefighter training report be submitted to the Governor and Legislature. This report summarizes training hours available and used on a county-by-county basis. In the event a county exceeded its allocation, the Office of Fire Prevention and Control (OFPC) drew from the balance of unused county hours to ensure all training requests were satisfied. In 2022, there were no unfulfilled requests. Additionally, Nassau, Suffolk, and Counties within New York City (FDNY) utilize local and county resources to provide for the majority of their firefighter training needs and do not request county training hours. Despite this, OFPC support and specialized training remains available in these counties.

HAZARDOUS MATERIALS TRAINING

OFPC is also required to annually report on the hazardous materials emergency response training program, pursuant to Executive Law 156-a. The ten training courses offered by OFPC meet or exceed federal occupational safety and health regulations pertaining to hazardous materials response, as well as the professional qualification standards established by the National Fire Protection Association (NFPA) and the Minimum Standards for Firefighting Personnel in the State of New York. In 2022, 5,551 first responders received one or more of these trainings.

Number of Individuals with Completed HazMat Training in 2022 by Course

OUT OF STATE TRAINING REPORT 2022

Pursuant to section 72-g of the General Municipal Law, fire chiefs throughout New York State are required to report the number of firefighters who attended training outside of New York State to OFPC. Out-of-state training is offered by a variety of institutions, including the United States Department of Homeland Security's National Fire Academy in Emmitsburg Maryland, as well as other professional development conferences and seminars sponsored by other respected fire service organizations. **There were 22 firefighters that trained out of state in 2022.**
